

Summer Access Survey

<u>School</u>	<u>Summer Fee</u>	<u>Comments</u>
University of Saskatchewan	no	Included in fees paid for Fall/Winter – students receive access until August 15 th .
University of Calgary	Yes	\$62 – may – August \$31 May/June or July August
UNB Saint John	No	Not enough summer traffic to warrant a fee
MSVU	No	Allowed access with previous years fees
Guelph	Mix	Again any registered Undergraduate (Full & Part time) and Full Time Graduate Students pay into their student fees similar to the Fall/Winter. What happens more here is that students stick around Guelph and are only taking Distance Ed. courses so they are not paying that student fee, this is where we offer a couple of options. A) Monthly Athletics Base Membership for \$69.79/mth B) Monthly Athletics Base + Fitness Centre Membership \$91.79/mth C) The most common for students - We have set up a membership that mirrors the student Fee's they pay so it acts as if they were in course, this is the cheapest option for them at \$129.82 +tax.
Windsor	Mix	Students registered for intercession and summer session would pay fees to use the centre. Those students leaving in the winter to return in the fall but are NOT registered for class, we do grant them free access. But only if they were registered in the winter term.
Ryerson	Yes	Full year fee that students can purchase as well as a summer charge that is May until August.

UNB	No – looking to change	We don't have a separate fee for the summer months for those students who have registered as full-time student over the fall and winter terms. However, we're looking at changing it next year when we open our new Athletic/Recreation Centre
McMaster	No specific summer fee	Summer access to McMaster's Recreation facility is included in the supplementary fee that students pay. We added this when we went to referendum a number of years ago. However, we always charge extra for fitness facility access regardless of the time of year.
UPEI	Yes	At the UPEI Sports Centre, we charge a \$40.00 fee to students to access the fitness centre for the Summer Months May 1st - Sept 1 st
U of R	Yes	Our regular Rec and Athletics fees apply only during the semesters students are registered for classes. We have a returning student rate for summer that is \$90. It is pro-rated everyday so if you start May 15th it is cheaper than if you start May 1. We only use that rate during the summer semester. We also have an off-campus student rate for students who are doing an internship or fieldwork (because they do not pay the R and A fee during those semesters).
Mount Royal University	Yes	We have a "returning student" summer membership rate (\$83.45 for 4 months) that they can pay out of pocket if they are not registered in any spring/summer classes but are registered to return for fall.
Brock	Yes	We allow students who were enrolled in the winter term, to purchase a pass to use the fitness centre during the summer months at the student rate (our students pay a separate fee all year for the weight area of our facility, but their student fees give them access to the pool, gymnasium, courts, track).
Waterloo	yes	At UW any term a student is not paying the student services fee then they must purchase a student membership for that term.
Laurentian	yes	We have a preferred summer rate for students.
